1st Choice Position Statement (500 Words):

As a person involved in IEEE for more than 6 years, i saw one of the most critical job was being a treasurer. IEEE Bangladesh Section is such a section where most of the activities evolved around student branches. Connecting student branch with the section was a challenge in recent years as IEEE Bangladesh Section is growing very rapidly from 2015 and we now have 36 student branches. As a person who was connected with student branches the whole year, solving the financial issue is one of the most important job and i think with proper financial policy these can be solved. My sole responsibilities will be follow proper guidelines set by IEEE, Keep every financial records transparent to Section EXCOM and make it available at any time for audit. Also here i like to add maintaining a close relationship with the branches does the job a lot easier which can help to clear any misunderstanding regarding the financial issues and i have already created that connection while doing my responsibilities as a Section Student Representative.
